UPLAND GAME BIRD STAMP

An Upland Game Bird stamp is required for hunting all upland game birds (pheasants, turkey, doves, band-tailed pigeons, snipe, grouse, ptarmigan, quail, partridge and chukar). The Upland Game Bird Stamp provides a dedicated source of funding, under the Game Bird Heritage Program, for programs, projects and land acquisitions to benefit upland game birds, and for related hunting opportunities and public outreach.

License Provisions

A California hunting license is required for taking any bird or mammal. Hunters must carry licenses and be prepared to show them on request. Guns and other equipment used in hunting must also be shown on request.

In addition to a hunting license, state and federal duck stamps are required to take migratory waterfowl; an upland game bird stamp is required to take pheasants, wild turkey, doves, band-tailed pigeons, snipe, grouse, ptarmigan, quail, partridge and chukar.

Residency Requirements: A resident is defined as any person who has resided continuously in California for six months immediately before the date of application for a license, tag or permit; or persons on active duty with the Armed Forces of the United States or an auxiliary branch; or

LICENSE PROVISIONS

Job Corps enrollees.

License Refund Policy: Refunds will not be issued for hunting licenses, as they are considered valid and in use from the date purchased.

Duplicate Hunting Licenses

If you have lost or destroyed your hunting license, you may replace it by taking your Department-issued license receipt (the one that came with your license) to any agent selling hunting licenses. Give the agent your receipt, pay the appropriate fee, and you can get a duplicate hunting license. Special stamps, such as duck stamps or upland game bird stamps, must be replaced at full-fee. Keep your receipt in a safe place. If you lose your receipt or your duplicate hunting license, you must purchase another license at full-fee.

Hunter Education Requirements

Hunters must present one of the following as proof of meeting California's hunter education competency requirements when applying for a hunting license:

1. A California hunting license from any prior year may be used as long as the hunting license validation stamp is still affixed. (One-day non-resident hunting licenses do not meet

this requirement.)

2. A "Declaration Form" signed and witnessed, stating the hunter has lost or destroyed a prior year California hunting license.

3. A California hunter education certificate, issued to persons successfully completing a California hunter education course. A hunter education validation stamp must be purchased from a license agent or DFG office and affixed to the certificate before it is acceptable as proof of hunter education.

4. A duplicate hunter education certificate, issued to any person whose California hunter education certificate was lost or destroyed.

5. A California hunter education equivalency certificate issued to persons who successfully complete a hunter education equivalency examination. A hunter education validation stamp must be affixed.

6. A hunter education certificate from any other State or Canadian Province, or a current year's hunting license from any State, Canadian province, European country, or South Africa.

ATTENTION MIGRATORY BIRD HUNTERS!

If you hunt ducks, geese, dove, band-tailed pigeon, snipe, coot, gallinules or black brant in California during the 2002/2003 license year, you *must* have a HARVEST INFORMATION SURVEY STAMP affixed to your hunting license.

If you identify yourself as a migratory bird hunter on your hunting license application and answer the brief questionnaire, the license agent will affix a FREE Harvest Survey Stamp to the back on your 2002/2003 California hunting license. (Band-tailed pigeon and black brant hunters are also asked to identify themselves on their license application.) Under Federal regulation, persons hunting these species without this stamp may be cited. If there is *any* possibility you might hunt these species during this license year, check "YES."

This federal regulation ensures that states provide the U. S. Fish and Wildlife Service (USFWS) with a valid sampling of migratory game bird hunters for the Harvest Information Program (HIP). A small segment of these hunters are asked to complete follow-up surveys on hunting activity and success. With this data, the USFWS can formulate more accurate harvest estimates and set appropriate seasons and bag limits. If you hunt in other states, you must meet the HIP requirements for each state. (Look for more information at license agents.)

Thank you for taking a minute to complete your hunting license questionnaire. Your information will help preserve California's migratory game bird resources and ensure future hunting opportunities.

OTHER LAWS RELATED TO HUNTING

LITTER: It is unlawful to deposit, permit to pass into, or place where it can pass into the waters of the state, or to abandon, dispose of, or throw away, within 150 feet of the high water mark of the waters of the state, any cans, bottles, garbage, rubbish, or the viscera or carcass of any dead mammal, or the carcass of any dead bird. (Section 5652, Fish and Game Code.)

SAFETY: It is always unlawful to: Place on, or carry or possess a loaded rifle or shotgun in a vehicle or conveyance or its attachments on any public road or other way open to the public;

Hunt while intoxicated;

Shoot at any game bird from a powerboat, sailboat, motor vehicle, or aircraft while

under power or still moving from use of sail or motor (See Section 251, Title 14, CCR); Shoot any firearm from or upon a public road or highway.

PUBLIC ROAD OR OTHER WAY OPEN DEFINED: "Public road or other way open", particularly with respect to safety regulations, includes any roads (dirt or otherwise), trails, open fields, parking lots, etc., open to public access. (See Section 374c, Penal Code.)

DISCHARGING FIREARMS OR OTHER DEADLY WEAPONS: It is unlawful for any person, other than the owner, person in possession of the premises, or a person having the express permission of the owner or person in possession of the premises, to hunt or to discharge while hunting, any

firearm or other deadly weapon within 150 yards of any occupied dwelling house, residence, or other building or any barn or other outbuilding used in connection therewith. The 150-yard area is a "safety zone." (See Section 3004, Fish and Game Code.)

FIREARMS: It is always unlawful to:

Use a shotgun larger than 10 gauge;

Use, for the taking of any game bird, a shotgun capable of holding more than three shells in the magazine and chamber combined;

Use or possess shotshells containing shot size larger than No. BB in lead or No. T in steel when hunting migratory game birds.

Use shot that is not loose in the shell for taking resident small game and migratory game birds;

Possess a machine gun, silencer, shotgun with barrel less than 18 inches in length, or rifle with barrel less than 16 inches in length.

However, possession of firearms or bows and arrows by persons traveling through game refuges on a public highway or other public thoroughfare or right of way is permitted when the firearms are taken apart or encased and unloaded, and the bows are unstrung.

National Parks and Monuments have special regulations regarding the possession of weapons, game and the running of hunting dogs. Check with federal officials before entering these areas.

TAGS AND LICENSES. It is always unlawful to: Hunt any game bird or mammal without having the required licenses, tags and/or stamps in possession;

Change, mutilate, or transfer any license, tag, or stamp;

Have in possession while hunting any license belonging to another person.

RESPECT FOR AUTHORITY: It is always unlawful to damage other's property while hunting.

TRESPASS: If the land you hunt on is not your own, it belongs to someone else. Make sure you have a legal right to be there. Contact the owner or person who administers the property, and secure written permission to hunt. A hunting license does not entitle you to enter private property.

"It is unlawful to enter any lands under cultivation or enclosed by a fence, belonging to, or occupied by, another, or to enter any uncultivated or unenclosed lands, including lands temporarily inundated by waters flowing outside the established banks of a river, stream, slough, or other waterway, where signs forbidding trespass are displayed at intervals not less than three to the mile along all exterior boundaries and at all roads and trails entering such lands, for the purpose of discharging any firearm or taking or destroying any mammal or bird, including any waterfowl, on such lands without having first obtained written permission from the owner of such lands, or his agent, or the person in lawful possession thereof. Such signs may be of any size and wording, other than the wording required for signs under Section 2017, which will fairly advise persons about to enter the land that the use of such land is so restricted." Section 2016, Fish and Game Code.

Information Related to Hunting Laws and Regulations

California's 2002-2003 resident and migratory upland game birds hunting seasons, bag limits, and the permitted hunting methods are contained in this booklet. These regulations, adopted by the Fish and Game Commission under authority of the Fish and Game Code, have been filed with the Office of Administrative Law, and with the Secretary of State and are included in Title 14 of the California Code of Regulations.

In addition to the regulations which follow, laws passed by the State Legislature concerning hunting and game are contained in the Fish and Game Code and in the California Penal Code. There are also federal laws prohibiting the possession of certain types of firearms.

Laws (passed by the Legislature) and regulations (adopted by the Fish and Game Commission) are formulated to protect wildlife and to provide for an equitable distribution of harvestable animals. The hunter who knows the laws and regulations can enjoy the hunting experience.

FEDERAL REGULATIONS RELATED TO BAITING

Federal regulations prohibiting hunting over bait for migratory game birds are incorporated by reference into State regulations pursuant to Section 509, Title 14, California Code of Regulations. Penalties for violating these regulations are severe. Persons may be fined up to \$15,000 and be sentenced to six months in jail if convicted of hunting over bait and be fined up to \$100,000 as an individual or \$200,000 as an organization and be sentenced to one year in prison if convicted of placing bait. *Simply stated, it is unlawful to take any migratory game bird by the aid of baiting, or on or over any baited area, where a person knows or reasonably should know that the area is or has been baited.* The regulations provided below, for the benefit of hunters, are taken from the Code of Federal Regulations (CFR). Information on all federal bait regulations, including those pertaining to agricultural planting, harvesting or post harvest manipulation may be obtained from the U.S. Fish and Wildlife Service by telephone at (916) 414-6660.

Excerpts from 50 CFR Part 20, Migratory Bird Hunting Regulations Regarding Baiting and Baited Areas, Sections 20.11 (j)-(l) and 20.21 (i)(1) and (2) read as follows:

§20.11 (j) *Baited area* means any area on which salt, grain, or other feed has been placed, exposed, deposited, distributed, or scattered, if that salt, grain, or other feed could serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them. Any such area will remain a baited area for ten days following the complete removal of all such salt, grain, or other feed.

(k) *Baiting* means the direct or indirect placing, exposing, depositing, distributing, or scattering of salt, grain, or other feed that could serve as a lure or attraction for migratory game birds to, on, or over any areas where hunters are attempting to take them.

(l) *Manipulation* means the alteration of natural vegetation or agricultural crops by activities that include but are not limited to mowing, shredding,

discing, rolling, chopping, trampling, flattening, burning, or herbicide treatments. The term *manipulation* does not include the distributing or scattering of grain, seed, or other feed after removal from or storage on the field where grown.

No person shall take any migratory game birds:

§20.21 (i) By the aid of baiting, or on or over any baited area, where a person knows or reasonably should know that the area is or has been baited. However, nothing in this paragraph prohibits:

(l) the taking of any migratory game bird, including waterfowl, coots, and cranes, on or over the following lands or areas that are not otherwise baited areas.

(i) Standing crops or flooded standing crops (including aquatics); standing, flooded, or manipulated natural vegetation; flooded harvested croplands; or lands or areas where seeds or grains have been scattered solely as the result of a normal agricultural planting, harvesting, post-harvest manipulation or normal soil stabilization practice;

(ii) From a blind or other place of concealment camouflaged with natural vegetation;

(iii) From a blind or other place of concealment camouflaged with vegetation from agricultural crops, as long as such camouflaging does not result in the exposing, depositing, distributing or scattering of grain or other feed; or

(iv) Standing or flooded standing agricultural crops where grain is inadvertently scattered solely as a result of a hunter entering or exiting a hunting area, placing decoys, or retrieving downed birds.

(2) The taking of any migratory game bird, except waterfowl, coots and cranes, on or over lands or areas that are not otherwise baited areas, and where grain or other feed has been distributed or scattered solely as the result of manipulation of an agricultural crop or other feed on the land where grown, or solely as the result of a normal agricultural operation.
